Validation Services for EURid Dot-eu Sunrise

.eu Sunrise: General

Objective of .eu Sunrise:

- avoid “cybersquatting”
 - registration of someone else’s trade mark, trade name, company name without any legitimate interest and/or in bad faith
 - selling registered domain names to owner of prior rights to such name at excessive prices

Proposed approach by European Commission:

- holders of “prior rights” benefit from a “pre-registration” period, before general registration of .eu domain names starts

.eu Sunrise = Phased Registration

Two Phases

- Phase 1: holders (and licensees) of registered trade marks, geographical indications or designations of origin and public bodies
 - December 7, 2005 – February 6, 2006
- Phase 2: holders entitled in Phase 1 + holders of other types of prior rights
 - February 7, 2006 – April 6, 2006

During Sunrise, domain name applicants must:

- apply for a domain name with EURid
- provide evidence to PricewaterhouseCoopers that they have a prior right to such name

Role of PricewaterhouseCoopers as EURid's Validation Agent

Documentary evidence submitted will be validated by PricewaterhouseCoopers

- appointed as validation agent by EURid because of
 - expertise in intellectual property rights
 - efficiency in processing
 - coverage of 20 official languages in all EU member states
 - use of state-of-the-art technology solutions
- verify whether a prior right to a name exists

Domain name applications and documentary evidence must be in line with Sunrise Rules

- drafted by PricewaterhouseCoopers in consultation with European Commission and interested parties
